Coal Situation Attracts Attention Because of the Movement in Readings-At Indianapolis Ceresls Dull and Weaker.

THE BOND MARKET.

Railroad Issues Pick Up and Furnish an Encouraging Feature.

At New York, yesterday, money on call was easy at 3 23 per cent., the last loan being made at 3 per cent., closing offered at 3 per cent.

Prime mercantile paper, 5@64 per cent. Sterling exchange was quiet but steady at \$4.854 for sixty-day bills and \$4.864 for demand.

The total sales of stocks were 317,830 shares.

'In Wall street the coal situation attracted attention chiefly because of the movement in the Reading securities. This is attributed to a squeeze of the shorts. The threatening sepect of trunk-line affairs, notwithstanding the withdrawal of an obnoxious rate by the Nickel-plate and the even less encouraging prospects further west in the railroad world, acted as a deterrent in the stock market, and until a more promising state of affairs is devel-oped it will be hard for a movement confined to one group of stocks to favorably affect the rest of the market. The Jewish holiday contributed in great measure to the duliness in the general list. Prices moved up almost steadily throughout the day, and the market finally closed active and strong at or near the best

figures of the day. Railroad bonds furnished the most encouraging features of the market, their increase in activity reflecting an increasing interest on the part of investors. Sales reached \$1,380,000, and in stocks 310,826 listed and 7,004 unlisted, Reading selling

Government bonds were dull and steady. State bonds were entirely neglected. Clos-

Philadelphia Inquirer. Political events have justified and proved the wisdom of the organization of the veterans of the war. It has protected not only its own members, but the two-thirds of the membership of the Union armies which never belonged to the Grand Army of the Republic. By standing together the veteraus have defeated their foes in civil life, who would malign the Nation's gratitude as they once defeated the forces of rebellion. The new generations have their own burdens to carry, their own ends to serve, and they would readily set aside the claims of the past were it not for the Grand Army of the Republic, with its annual Decoration day, its great September encampment and parade, and its vote at the State and national elections.

Wheat Improved 11-8c on the Day, Closing Strong at 77c for December.

Corn and Oats Wavered More or Less from the Opening, Finally Closing at or Near First Figures and Somewhat Weak.

TRADING AT CHICAGO.

Hog Products Were Dull, the Closing Being at a Loss for Ribs. CHICAGO, Sept. 22,-Wheat was fairly active on the Board of Trade to-day, and, barring a brief period of weakness in the

early trading, the tone was generally firm. Cables were a shade firmer. The impression has gone out that during the last few days there have been heavy purchases for investment. Sidney Kent is credited with a long line of 2,000,000 bushels; Bloom, with over a million; Linn, fully a million, with many others holding from 250,000 to 500,000 each. This absorption has brought a strong element into the market. Roche has returned from the Northwest, and brings a gloomy account of the situation there, and says that in many sections of southern Minnesota the wheat will not pay for harvesting. December opened 'sc lower, at 55 %c. and, with minor fluctuations, ad-

vanced to 774c, closing strong at 77c. Corn opened lower and was weak for a time on account of the continued fine weather and absence of frosts in the corn belt, the fact that the receipts are over the estimates and that the grading continued high. October opened to lower at 45%c, sold at 45%c, advanced to 46c, reacted to 45%c, advanced to 46%c, but broke again and closed at 45%c.

Oats were firm in the early dealings, but broke later, following the course of corn, but fallied with that cereal toward the close and closed within a point of the top figures of the day and 'sc under yesterday's Hog products were dull and featureless at a somewhat lower range during most of

the session, though pork and lard recovered the loss. Ribs, however, closed 10c lower for the near futures. Estimated receipts for to-morrow are: Wheat, 407 cars; corn, 525 cars; oats, 330 ears; hogs, 24,000 head. The leading futures

Everybody in Indiana

Who reads the newspapers and otherwise keeps in step with current events knows of the wonderful progress in wealth, popu-lation and prosperity now being made by the gas belt cities and towns of the State, and that naturally a great deal of money is being made in them by outside in vestors.

Marion Is Certainly

One of the best and most substantial of these bright and growing cities; and I have on my books a number of desirable acre tracts and other real-estate investments, both improved and unimproved to offer here. I also have some choice regular

Dividend Paying Stocks

In various manufacturing enterprises, in large or small amounts, that pay from 12 to 40 per cent., which are especially safe and desirable investments for women or estates wishing regular incomes for their small or large capital. For particulars address WILLIAM B. DODDS, Marion, Ind.

Equal to Emergencies. Northwestern Christian Advocate. Many people in this world are all right and respectable until the world really needs them, whereupon they proceed to collapse and dribble down into a puddle of mefficiency. Mr. Harrison does not emerge from a crisis in that way. He has already said that vessels sailing from infected ports must quarantine twenty days; he has ordered Sandy Hook to be used, as we have explained, and now he intimates that if European passenger ship lines persist in shipping infected passengers to our ports those ports shall be summarily closed against their vessels. "Snap" is golden in
